

# MISSING WRAP LENS

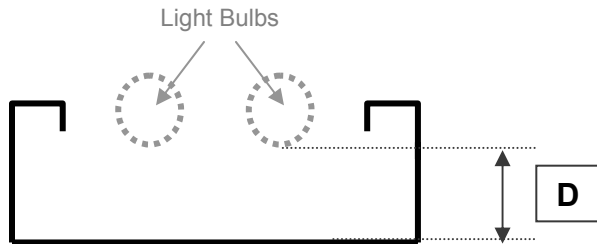

(fixture remains / lens missing)

Worksheet

Please provide measurements  
 from your existing fixture:

End View of Lens

**EXISTING FIXTURE**

Side A (Hook to Hook) \_\_\_\_\_

Side B (Overall Width) \_\_\_\_\_

Side C (Overall Length) \_\_\_\_\_

**NEW LENS INFORMATION**

Side D (Height/Clearance) \_\_\_\_\_

“D” Measurement needs to provide ample clearance from lamp/bulb area to the lens. Typically, it is 1-1/2 to 2 inches in a standard lens, but please measure for accuracy.
